A Saide Initiative

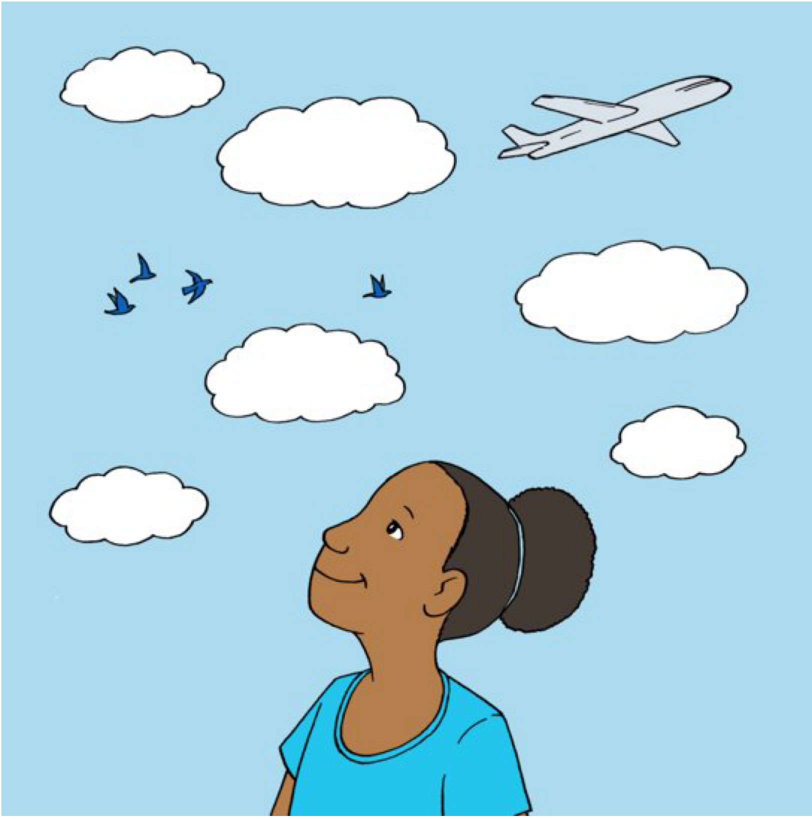

There are many ways to travel.

Which shall I choose?

Should I use a plane?

Planes fly very high.

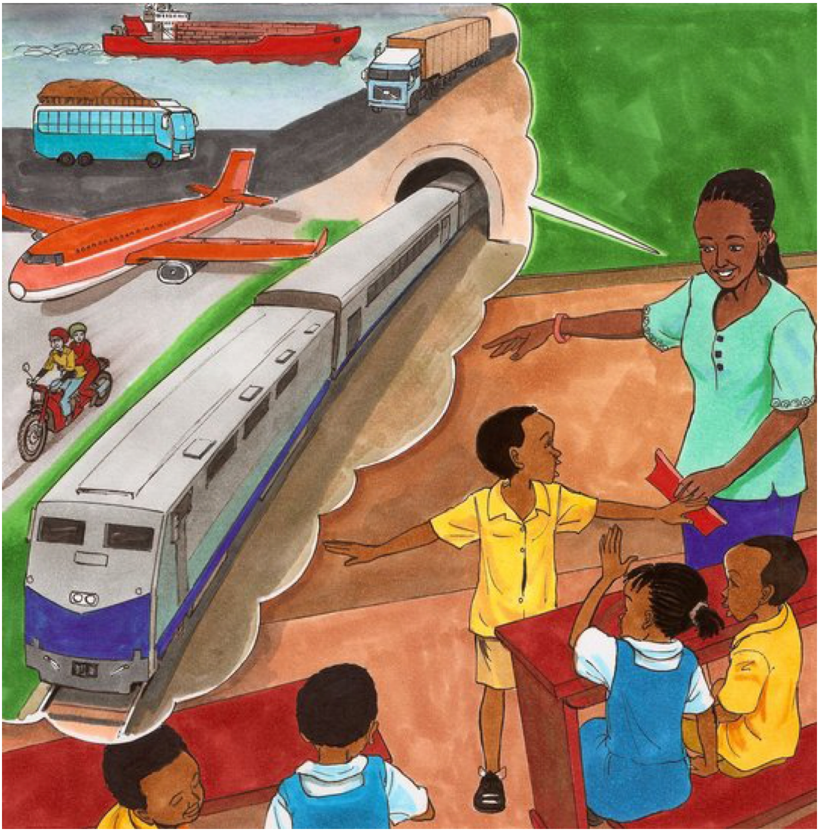

I am afraid of flying!

Perhaps I should use a helicopter?

But helicopters and planes are the same!

Should I perhaps use a train?

But the train station is very far.

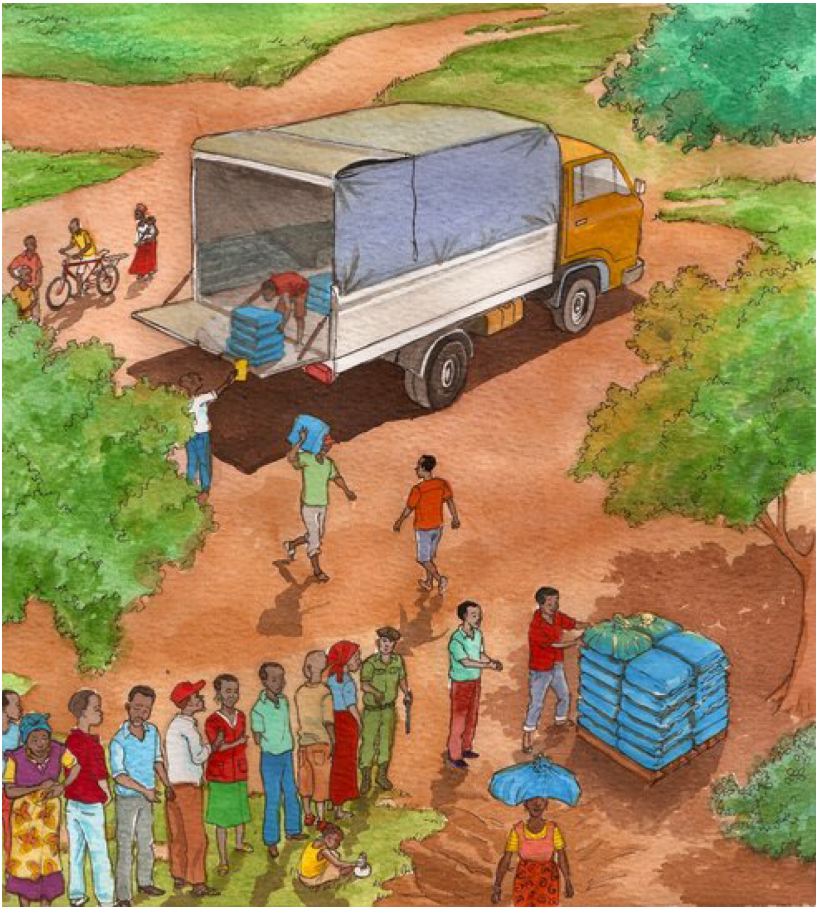

Or, perhaps, I should use a bus?

Our village has only one bus!

Perhaps I shall use a lorry to travel.

But lorries are used for carrying heavy luggage.

Should I use a bicycle to travel?

But will my father give me his bicycle?

Perhaps I will try to use a boat?

But I do not trust boats very much!

Aah! I know what I shall use!

I shall use a tractor to travel.
